CAUSE OF A BIG DISCUSSION.

When W. C. Hunter, chairman of Eighth Ward—Professor Milton

Bennion of Salt Lake will be the Kay, disaffection arose and an expectage of the Professor Milton speaker at the Eighth ward meeting tended discussion was entered into. Some favored not contracting for beets with the home company in pany Mr. Temple. 1916 and others expressed the idea that the company had offered all that the bureau had contended for.

In his report, Mr. Hunter said that he held a conference with Manager L. R. Eccles and other officers of the company this morning on the request made by the bureau that the company enter into a written agreement to furnish piling places. for beets when cars were not available, and that they said they would sign no agreement of that kind. The of-ficers told Mr. Hunter, and he so reported to the bureau, that conditions in the various localities were quite different and to sign an agreement covering the entire country handling of the beet crop.

Mr. Hunter said that the Amalgamated people said they were eager to do all in their power for the good of the sugar beet growing industry trons' new hall in the Utah National The company also authorized Mr. Bank building. Hunter to say that dumping places will be amply provided in districts where 300 acres or more of beets are being cultivated.

Speaking further on the question, Chairman Hunter said that he be Utah booster's time to read and learn. lieved the farmers were satisfied with PROVO ARE VISITED the contract prepared by the sugar cians were so well drawn by Mrs. company, and that the only trouble pitzgerald that as the panorama passethat arises comes through the talk of certain agitators. He said that the more easily understood how those farmers are signing contracts all the time and he could see that it would be quite out of the question for the contracts at this late date, either by interlineation or by separate agreement

J. D. Brown disagreed with Mr. Hunter and said that in his mind the farmers should enter into contracts with some other company. He contended that the farmers in the county are interested in the farm bureau and are working in accordance with its pro-gram. He though that if the bureau could not be recognized by the sugar company and that the company would not sign an agreement to do the things the officers orally say they are willing to agree to do, the company should be left to get its beets from some other locality.

Going farther in his talk, Mr. Brown reau and that he was representing the state. company rather than the bureau in his committee work. He remarked that if given by Mrs. Fetherolf "Where Does the officers of the sugar company, a new committee should be called into
